About Metalex

Metalex Trading and Contracting Company was established in the year 1992. It has grown up from strength to strength and the present total employees are around 300. The covered area of our facility including support buildings is 7000 Sq.m over a land plot size of over 12200 Sq.m.

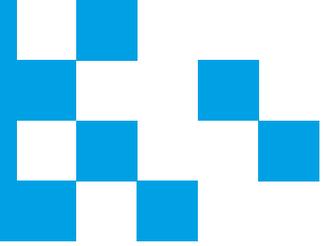

Metalex's philosophy is to provide a comprehensive and professional project service conforming to international standards. Since its inception, the company has focused its attention on specialized fabrication projects involving steel and metal work. Our mission is the uncompromising commitment to achieving high standards of quality and service. This has helped the company to earn good reputation and forge long term relationships with its customers.

Metalex has in recent years developed an excellent track record in a wide variety of structural and architectural work including heavy steel structures, steel and metal work from petrochemical industry, tensile structures and shades, canopies, metal work for sewerage and water supply projects.

We trust this booklet will give you fillip to talk to us further when we will be pleased to explain more about the specialized services we are able to offer and how our philosophy and experience can be applied to the benefit of future projects.

Ghassan Khader
General Manager

Services we offered

Tensile structures and Shades

Fabrication and erection of Tensile Structures and Shades, using framed steelwork, wire rope cables and polyester reinforced fabric.

Steelwork for Multi-storey Buildings

Design, fabrication, supply and erection of steel structures and fire proofing of Multi storey buildings.

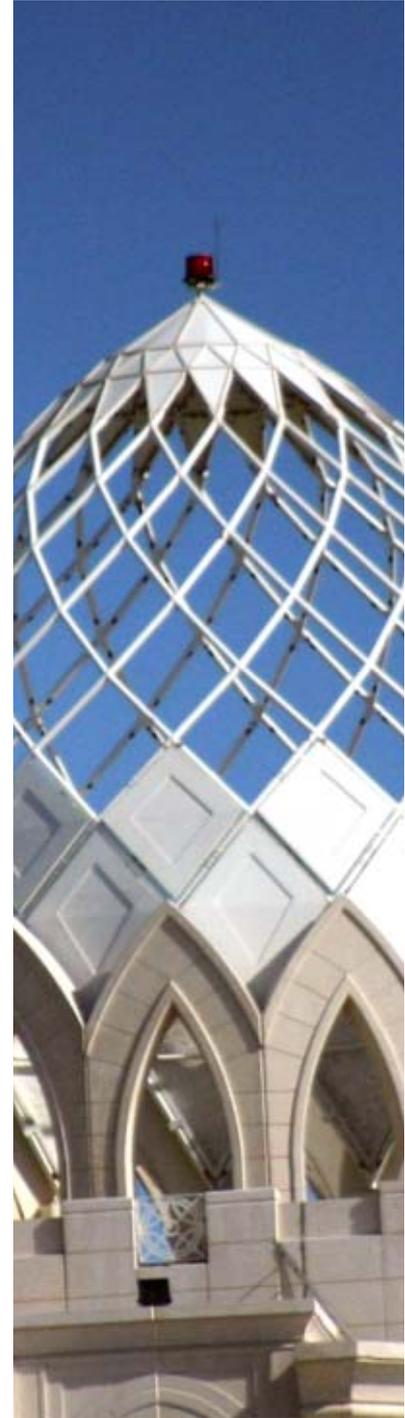

Steelwork for Industrial Buildings

Design, fabrication, supply and erection of Steel structures and fire proofing of Industrial buildings. Cinemas and Roof structures.

Our ability to carry out in house design and detailing allows us to produce cost effective solutions to structural problems. This results in a cost benefits to our clients and end users.

With a view to provide professional engineered services & customer satisfaction of the highest degree. Each service is adequately handled by professionals exemplary in their respective fields.

Pedestrian Bridges and Staircase

Design, fabrication, supply and erection of steel structure for Pedestrian bridges, Access bridges and Stair cases.

Communication Towers and Monopoles

Design, fabrication, supply and erection of galvanised steel tower and monopoles.

Architectural metalwork

Design, fabrication and erection of structural and Architectural Metal works with highest degree of finishing and longevity.

Our services are fully equipped with all necessary infrastructures which can give you total solutions of Design, Fabrication, Final Construction and delivery.

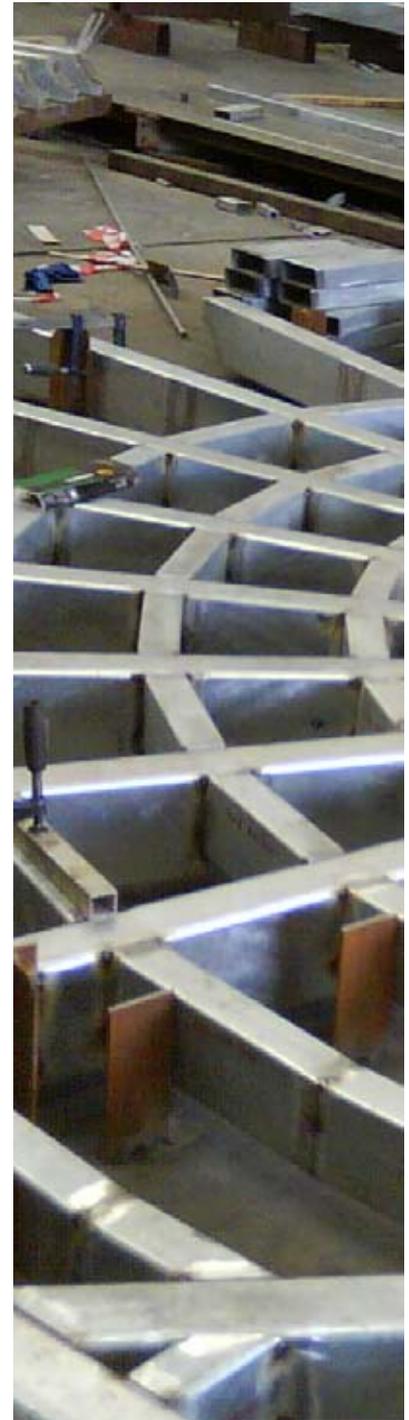

Steel Stairs case and Handrails

Design, Fabrication and erection of Stairs, Handrails, Spiral Stairs, Fire escape Stairs made of Mild steel and stainless steel.

Aluminium Louvers , Handrails

Design, fabrication, supply and erection of wall louvers using steel frame and in-house designed aluminium louver profile.

Miscellaneous metalwork

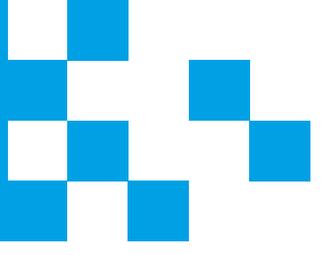

Metal works such as Canopy, Hand railings, Gratings, SS Cladding, Open mesh floorings and Pit covers for Sewage and water supply projects.

Certificates & affiliations

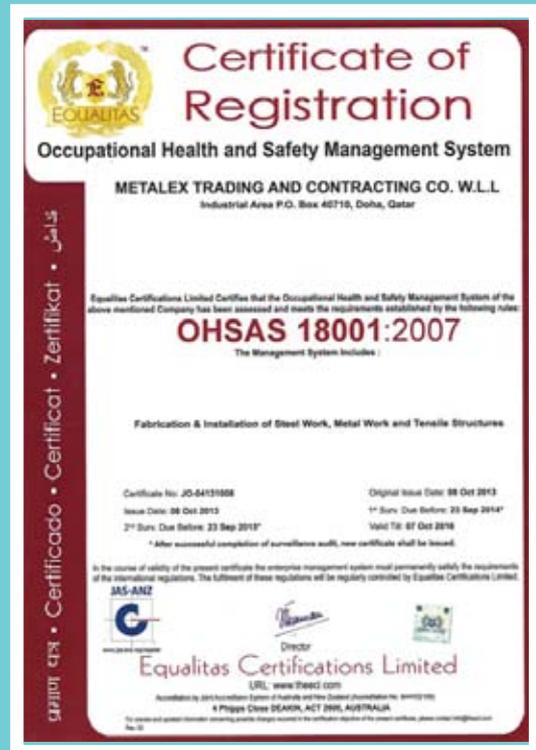

Membership

We believe in association with corporate bodies and continual learning is the key to success and sustainable growth.

Metalex's commitment to quality, conformance to standards and customer satisfactions helped to achieve ISO certificate of registration.

Certificate of appreciation

For contributing to the success of 15th Asian Games Doha 2006.

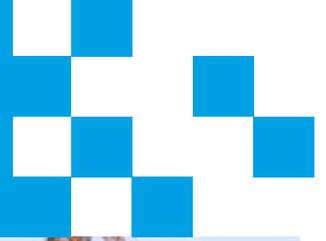

Business Excellence Award

Best Sub Contractor of the year 2013,
from Gulf Contracting Co. (W.L.L.)

Metalex has been focusing on delivering high-quality services within budget and on time. Metalex's technical expertise and modern production capabilities will complement the customers, with changing market needs and technologies. Metalex is committed to policies of investments and innovation within the company, to refine and enhance the services we offer to our clients.

Projects portfolio

A'ayan Tower

Floor Count: 48, Finished Year: 2009

Lagoon Twin Tower

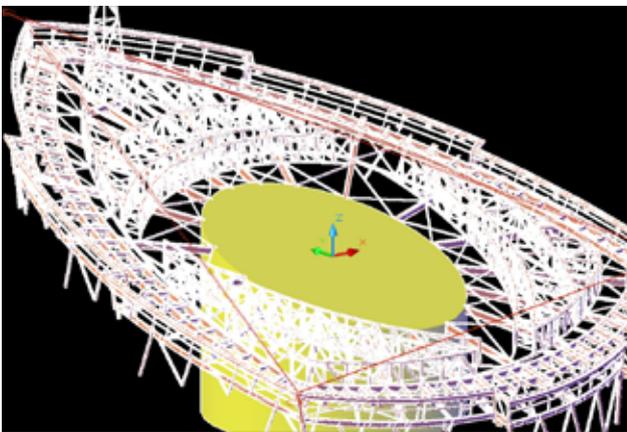

Floor Count: 34, Finished Year: 2009
Main Contractor: Marbu Cont. Co.

Palm Twin Tower

Floor Count: 57, Finished Year: 2011
Main Contractor: Al Seal Cont.

Al Bidda Tower

Floor Count: Top 4 floors, Finished Year: 2010
Main Contractor: HIGGS & HILL

Business Park

Finished Year: 2010

Main Contractor: Redco

Nobu Restaurant

Finished Year: 2013

Main Contractor: TERNA

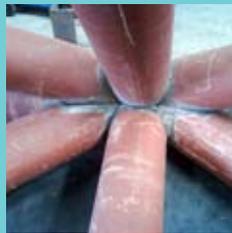

Medina Centrale Building-7

*Steel Framing and Roof Structure
Main Contractor: Power Line Engg.*

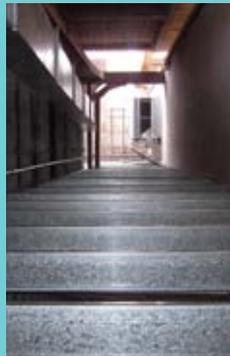

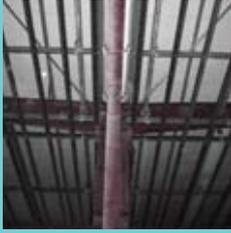

Oryx Rotana Hotel

*Steel support for Hanging wenge feature and Indoor Canopy
Main Contractor: Gulf Cont. Co. W.L.L*

Villagio Mall Cinemas - 13 Scr.

*Steel Framing and Roof Structure
Main Contractor: Businesses Trading
Company*

Gulf Mall Cinemas 13 Screens

*Steel Framing, Acoustic wall, Roof Structure
and Fire Proofing
Main Contractor: QBIC*

Communication Tower
For Ministry of Interior

Communication Tower
For Ooredoo (formerly Qtel)

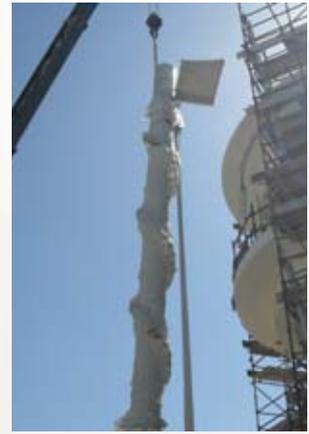

**Multi Storey
Car Parking**
*Roof Structure, Standing Seam, Roof
Cladding and Pedestrian Bridge*
Main Contractor: Boom General Contractors

**Bicycle Track
Asian Games 2006**
Steel Structure for bicycle track for DAGOC

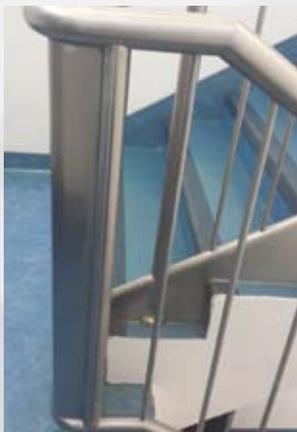

Spiral Stair Case
*at Coast Guard Watch Tower Bld. for
CCC & TEYSEER JV*

SS & MS Staircase
for Qatar Academy, Al Wakra

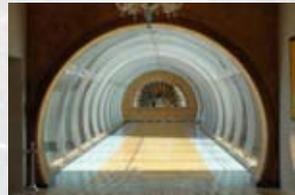

Pedestrian Bridge

for Qatar Racing Club

Access Bridge

at Lacegal Hotel for Khatib & Alami

Pedestrian Access Bridge

for Hamad Medical Corporation

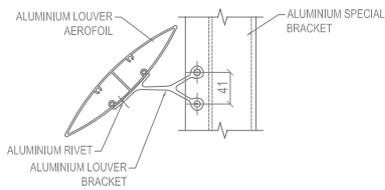

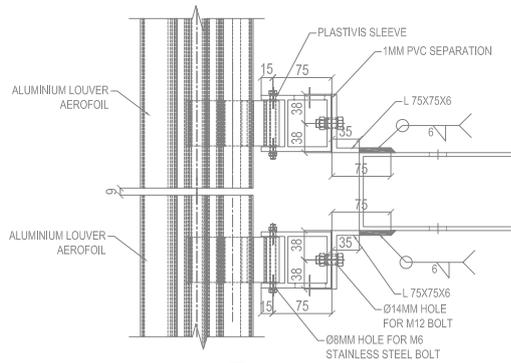

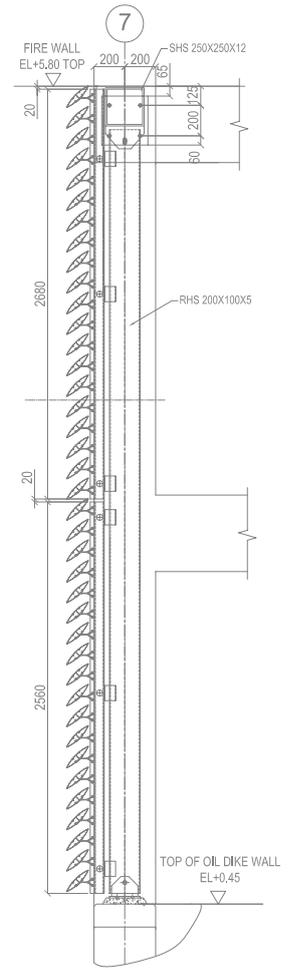

Pedestrian Bridge, Eve Canopy & Lift Frames

Bridge 11 Nos. ,Lift Frame 4 Nos for Supreme Education Council Head Qtrs. for Al Huda Engg.

Wall Louvers

for Transformers in Wajba

Tensile Canopies and Car Park Shade at Ras Laffan Industrial City West Security Gate

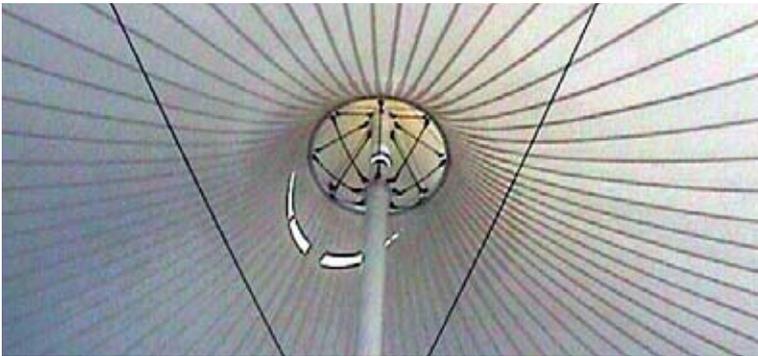

Main Contractor: KBAS Contracting, Trading & Industrial Co.

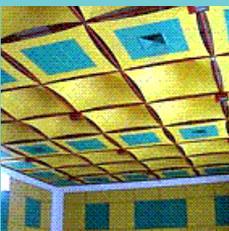

Tensile Canopy

for Private Gas Station at Al Rayyan

Fabric tent and Shade Ceiling Structure

Junior school sports facilities & cafeteria
Main Contractor: MIDMAC

Tensile Canopy

at Alfardan

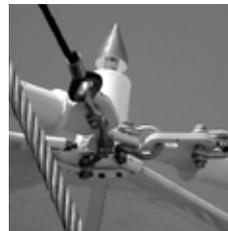

Main Contractor: QBEC

Tents and Framing

for Al Jazeera School

Main Contractor: QBEC

Tent Shade at Play Area
for Qatar Foundation.
Main Contractor: Midmac Contracting Co. WLL.

Tensile Canopy and Car Park Shade
for New Training Center
Main Contractor: Al Mana Engg.

Steel Dome

2 Nos. for Four Season Hotel
Contractor: ALUTECH

SS Canopy, Brass Gates & Wall Panels

for Msheireb, Down Town Doha
Contractor: ALUTECH

Steel Structural Multi-Storey Buildings

We Offer:

- ◆ Design, Fabrication and Erection of Structural and Architectural Metal Work.
- ◆ Design, Fabrication, Supply, Erection and Fire Proofing of Multi- Storey Buildings.
- ◆ Fabrication and Erection of Tensile Structures and Shades.
- ◆ Miscellaneous Metal Works for Sewage And Water supply Projects.

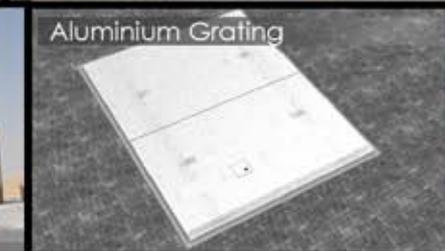

Steel Dome

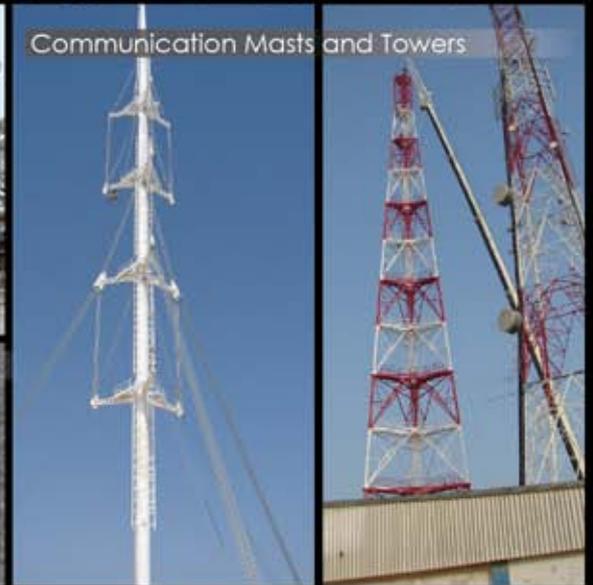

Communication Masts and Towers

Louvered Wall

Aluminium Grating

Pedestrian Bridges

Bicycle Velodrome

Tensile Shades

Metalex has a wide range of machinery for fabrications these include conventional cutting, drilling, shearing, punching, bending and painting machines as well as Computer Numeric control (CNC) machines such as Water Jet cutting machine (2m x 4m), Plasma cutting machines (3m x 13m) & (2m x 6m), Grooving machines (2m x 4m) and Laser cutting machine.
